Table 50 Representing
Information on Working Status

The diagram illustrates a stack of data blocks representing working status information. The blocks are organized into four main groups, indicated by brackets and labels on the right side:

- Group 51:** A single block labeled "MAC Address".
- Group 52:** A stack of three blocks: "Number of Printed Sheets (Size B5)", "Number of Printed Sheets (Size A4)", and a block containing three vertical dots (representing additional sheet sizes).
- Group 53:** A stack of four blocks: "Consumption of Toner (C)", "Consumption of Toner (M)", "Consumption of Toner (Y)", and "Consumption of Toner (K)".
- Group 54:** A stack of two blocks: "Error Time" and a block containing three vertical dots (representing additional error information).

On the left side of the stack, there are labels for each row of blocks: "M", "Number", "Number", "Number", "Consumption", "Consumption", "Consumption", "Consumption", "Consumption", and "Consumption".
